(54) Title: SEMICONDUCTOR INTEGRATED CIRCUIT DEVICE AND ITS MANUFACTURING METHOD

(54) 発明の名称: 半導体集積回路装置及びその製造方法

(57) Abstract: A semiconductor integrated circuit device has a column array comprising semiconductor columns and insulator columns arranged alternately in one direction; nonvolatile storage elements provided in the semiconductor columns, respectively, wherein the side face of the semiconductor column in the one direction is provided with a control gate electrode with a gate insulation film in between, the top face of the semiconductor column a drain region, and the bottom face of the semiconductor column a source region; and a wiring which includes the control gate electrodes of the nonvolatile storage elements and is provided in the one direction on the side face of the column array in the one direction

[続葉有]

#### (57) 要約:

半導体集積回路装置は、半導体柱と絶縁体柱が一方向に交互に敷き 詰めた状態で複数配置された柱列と、

前記複数の半導体柱に夫々設けられた複数の不揮発性記憶素子であって、前記半導体柱の前記一方向に沿う側面にゲート絶縁膜を介在して制御ゲート電極が設けられ、前記半導体柱の上面部にドレイン領域が設けられ、かつ前記半導体柱の底面部にソース領域が設けられた複数の不揮発性記憶素子と、

前記複数の不揮発性記憶素子の夫々の制御ゲート電極を含み、かつ前記柱列の前記一方向に沿う側面に前記一方向に沿って設けられた配線とを有する。

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |

Form PCT/ISA/210 (continuation of second sheet) (July 1998)

International application No. PCT/JP02/04080

| Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)                                                                                                       |  |  |  |  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|
| This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:                                                                      |  |  |  |  |
| 1. Claims Nos.:                                                                                                                                                                                               |  |  |  |  |
| because they relate to subject matter not required to be searched by this Authority, namely:                                                                                                                  |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
| 2. X Claims Nos.: 24-26                                                                                                                                                                                       |  |  |  |  |
| because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically: |  |  |  |  |
| The inventions of claims 24-26 relate to a method comprising "the step of                                                                                                                                     |  |  |  |  |
| forming a wiring on the side face of a protruding island region by anisotropically etching the conductive film and of forming a contact region integrated with                                                |  |  |  |  |
| the wiring". (continued to extra sheet)                                                                                                                                                                       |  |  |  |  |
| 3. Claims Nos.:                                                                                                                                                                                               |  |  |  |  |
| because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).                                                                                       |  |  |  |  |
| Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)                                                                                                               |  |  |  |  |
| This International Searching Authority found multiple inventions in this international application, as follows:                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
| 1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable                                                                           |  |  |  |  |
| claims.                                                                                                                                                                                                       |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
| 2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment                                                                              |  |  |  |  |
| of any additional fee.                                                                                                                                                                                        |  |  |  |  |
| 3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers                                                                             |  |  |  |  |
| only those claims for which fees were paid, specifically claims Nos.:                                                                                                                                         |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
| 4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is                                                                                    |  |  |  |  |
| restricted to the invention first mentioned in the claims; it is covered by claims Nos.:                                                                                                                      |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |
| Remark on Protest The additional search fees were accompanied by the applicant's protest.                                                                                                                     |  |  |  |  |
| No protest accompanied the payment of additional search fees.                                                                                                                                                 |  |  |  |  |
|                                                                                                                                                                                                               |  |  |  |  |

International application No.
PCT/JP02/04080

Continuation of Box No.I-2 of continuation of first sheet(1)

However, how the wiring and the contact region are formed simultaneously by anisotropic etching is not described. Therefore, it is unclear what the above-mentioned step defines specifically.
